PROFESSIONAL SUMMARY

An achievement-oriented and competitive Computer and Network Engineering (TKJ) graduate, demonstrated by winning 1st Place in the Vocational Student Competency Competition (LKS) for IT Network System Administration at the Regency level. Possesses hands-on internship experience in managing server infrastructure (Linux & Windows), network configuration (Cisco & MikroTik), and physical fiber optic deployment (FTTH). Highly adaptable to emerging technologies and ready to contribute effectively to the IT industry.

TECHNICAL SKILLS

- Networking & Wireless: MikroTik RouterOS (NAT, Firewall, Hotspot Gateway, User Profiles), Routing (OSPF, BGP, EIGRP, RIPv2), VLAN, Wireless AP-Bridge, Subnetting.
- System Administration: Linux Server (Debian 12/13), Windows Server 2022, Active Directory (ADDS), DNS (Bind9), Web Server (Nginx, Apache2, IIS), HAProxy.
- Hardware & Infrastructure: Fiber Optic (Splicing, OPM/VFL Termination), UTP Cabling, PC Assembly & Troubleshooting, Rack Server & Cable Management.
- Virtualization & Tools: VMware Workstation 17.5, Cisco Packet Tracer, Cloud Environment.
- Web Development: HTML5, CSS3 (Custom Properties), Vanilla JavaScript.

SOFT SKILLS

Problem Solving, Analytical Thinking, Adaptability, Time Management, Teamwork & Communication.

COMPETITIONS & PROJECTS

Vocational Student Competency Competition (LKS) Participant – Provincial Level | IT Network System Administration

Apr 2026

- Configured and managed cloud-based network infrastructure remotely.
- Manually built DNS Server (Bind9) and Web Server (Nginx) on Debian 13, and implemented basic load balancing using HAProxy.
- Configured Windows Server 2022 for Active Directory (ADDS), DNS, DHCP, IIS, and User/Group (OU) management.
- Designed complex network simulations using Cisco Packet Tracer (Physical Mode), including VLAN, EtherChannel, and routing protocols (OSPF, BGP, EIGRP).

1st Place – IT Network System Administration | LKS SMK - Regency Level

Jan 2026

- Secured first place in a server and network administration competition utilizing VMware Workstation virtualization on physical PC infrastructure.
- Configured Cisco networks involving subnetting, inter-VLAN routing, VTP v2, DHCP Server, and dynamic routing redistribution (OSPF, BGP, RIPv2).
- Developed Linux (Debian) and Windows Servers for network administration, including RAID storage management and file sharing.

INTERNSHIP EXPERIENCE

UPTD Balai Latihan Kerja (BLK) Kebumen | IT Network & Server Intern

Nov 2025 - Dec 2025

- Configured LAN, WLAN, and Hotspot Gateway using MikroTik RouterOS and implemented firewall systems.
- Installed Debian 12 on VMware, configured Web Server (Nginx), and deployed CMS PrestaShop on a local server.
- Designed static routing network simulations using Cisco Packet Tracer.

Fazza Computer | FTTH & Network Intern

Sep 2025 - Nov 2025

- Performed FTTH (Fiber To The Home) network installations and deployed fiber optic cables for new subscribers.
- Configured and verified the functionality of customer ONT (Optical Network Terminal) devices.
- Handled basic maintenance and troubleshooting of client network infrastructure.

IMC Computer | PC & Network Intern

Feb 2025 - Apr 2025

- Assembled PCs and laptops, and verified the functionality of hardware and software components.
- Executed Windows operating system installations alongside supporting software configurations.
- Diagnosed and resolved fundamental technical issues and hardware/software faults on computer devices.

EDUCATION

SMK Patriot Pituruh | Computer and Network Engineering (TKJ)

Graduated 2026

CERTIFICATIONS & AWARDS

- 1st Place in Vocational Student Competency Competition (LKS) for IT Network System Administration – Regional Department of Education (Dinas Pendidikan Wilayah IX), Regency Level (2026).
